

Classic workhorse meets modern workplace

The ECOSYS legacy continues with a series of powerful and versatile multi-function devices to make hybrid working successful.

ECOSYS MA6000ifx Series

A4 BW MFPs

47-62 pages per minute

Duplex printing and scanning

1200 x 1200 dpi resolution

Mobile printing

Your digital transformation journey can't wait

Technology is moving faster than ever before. The workplace is no longer confined to office spaces or rigid work hours. **Digital transformation is a top-of-mind leadership objective** – a persistent reminder that there is no time to waste when it comes to investing in technology and innovation.

Today's world is about leveraging modern tools to become as efficient as possible. It's about eliminating tedious manual processes using intelligent software. It's about working securely, with flexibility from anywhere. To that end, **businesses need reliable and versatile technology like the ECOSYS MA6000ifx Series.**

Combining the very best of our A4 printers with multi-function features.

We've expanded our most dependable printer series, the ECOSYS PA6000x, to create a new line of strong workhorse devices with **multi-function capabilities and software integration.** The ECOSYS MA6000ifx Series is built up of **four black and white A4 MFPs**, offering the same enhanced security features and tried-and-true technology.

ECOSYS	Function	Print Speeds
MA4500ix	Copy, print, and scan	47ppm BW
MA4500ifx	Copy, print, scan and fax	47ppm BW
MA5500ifx	Copy, print, scan and fax	57ppm BW
MA6000ifx	Copy, print, scan and fax	62ppm BW

ECOSYS MA6000ifx Series

Unrivalled agility for your workflows

Ideal for small to medium workgroups and remote offices, the **ECOSYS MA6000ifx Series** represents the perfect tool for the modern professional. These compact and versatile multi-function printers have found the **sweet spot** between compactness, output quality, productivity, and data security.

In the age of the anywhere worker, success will be defined by those who equip staff with the tools needed to work with the same quality, productivity, and security regardless of where they operate from.

The ECOSYS MA6000ifx Series has answered the call.

High productivity

With up to 62 pages per minute, the ECOSYS MA6000ifx Series is perfect for workspaces that have a need for speed.

Increased mobility

Work on-the-go by adding optional wireless and Wi-Fi Direct capabilities to print and scan more conveniently.

Award-winning security

Kyocera's K-Level security gives important business documents outstanding protection.

Maximum efficiency

Add high-quality prints, copies, and scans to your workflows while consuming less energy.

Quality that lasts

With laser-sharp texts and clear fine lines, users get stunning output from the first page to the last.

Agile workflows

Mobile printing capabilities enable professionals to print from the office, road, or home.

User-friendly

An attractive and intuitive interface makes it simple to carry out your tasks without wasting valuable time.

The perfect fit

With a compact design, these devices are ideal for smaller workspaces or home offices.

The ECOSYS MA6000ifx Series represents a **modern twist** on our famous ECOSYS technology, a series designed to exceed expectations in today's business environments that prize both **quantity and quality**.

Priceless peace of mind

Today's businesses face new security threats. The age of the anywhere worker has brought about unprecedented levels of enterprise mobility. However, as the volume of **remote devices connecting to shared networks increases every day**, organizations require **peace of mind more than ever with their sensitive data**. Security breaches are becoming more sophisticated and every business demands **device, data, and network protection**.

With the ECOSYS MA6000ifx Series, when you combine **optional hard drive memory and K-Level security firmware**, these enhanced levels of protection can be integrated with these Kyocera devices. Recognized for its truly outstanding device protection by Keypoint Intelligence, Kyocera's K-Level security gives you one less thing to worry about.

Threat detection

SIEM actively watches your device to keep tabs not only on what is entering the system, but also guards against potential security breaches.

Hassle-free certificate issuance

Certificates are issued automatically with SCEP, requiring no manual intervention from your team. This ensures your device has the latest security updates.

Data integrity

Data can be encrypted with the Data Security Kit and an optional SSD, keeping your confidential information secure.

Strict access

Only authorized users can access your Kyocera devices with all information protected by Advanced Authentication.

Digital Signature check

With ECDSA, you can verify the authenticity of your certificate utilizing a Trusted Certificate Authority.

Elevated security standards

By supporting FIPS 140-3, our devices ensure our customers a high degree of security, assurance, and dependability.

Entry points covered

With IP addresses and wireless networks encrypted and requiring authentication, hackers will face extreme difficulty in finding an entry point.

Easy status check of certificates

Ensure that your security certificates are valid via web browsers with OCSP/CRL and speed up the checking process.

More secure printing

Secure back and forth communication in your business utilizing TLS v1.3.

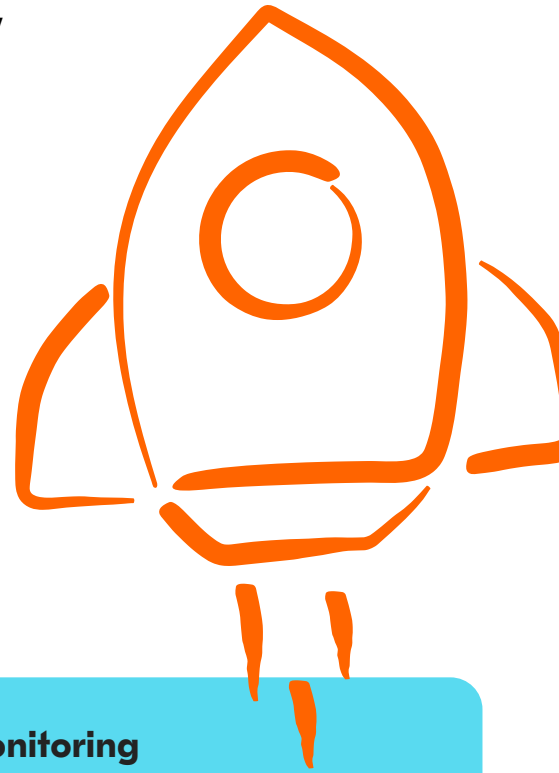

Boost your business with the cloud

As organizations move forward on their digital transformation journey, they are searching for more ways to increase agility, profitability, and scalability, making cloud computing technology the perfect solution.

Investing in reliable hardware like the ECOSYS MA6000ifx Series is only the first step to optimizing the way you work – **to unlock its full potential, your business needs to combine it with innovative cloud-based solutions.** That's why we ensured that our new models are compatible with two of our most robust cloud software – **Kyocera Fleet Services and Kyocera Cloud Print and Scan.**

If you're looking to maximize your resources and optimize your print fleet, **Kyocera Fleet Services** will help you with:

Automatic toner replacement

The software monitors your device toner levels and automatically orders supplies or sends you a notification that your toner levels are low, helping you save time.

Remote monitoring

Technicians can monitor your devices from anywhere and instantly access your fleet for timely problem resolutions, reducing downtime on time-consuming on-site visits.

After-hour updates

Kyocera or your service provider configure your devices and can perform updates remotely during off-peak hours, enabling your business to work smarter and reduce downtime.

Real time updates

Experts will monitor data to identify key areas to boost device performance and make adjustments on devices that are overworked, making your workflows more efficient.

It's time to embrace agile working.

If you're searching for a **solution that helps you save time and money, Kyocera Cloud Print and Scan is the ideal option** for your business. Kyocera's cloud technology makes printing and scanning simple, secure, and more affordable, providing your organization with the sought-after flexibility for hybrid working.

By integrating Kyocera Cloud Print and Scan with the ECOSYS MA6000ifx Series, **you get the best of both worlds.**

You can get in touch with your Kyocera Dealer to discuss how Kyocera Cloud Print and Scan can work for you.

Print and scan from anywhere, any time
Print and scan with your mobile device using Kyocera Mobile Print Android and iOS apps.

Connect to the cloud
Use any of your existing cloud storage platforms to print or scan to make document management convenient and efficient.

Get up and running in no time
Cloud software removes the costs of on-site servers and can be integrated rapidly in one day.

Print securely
Your documents will never be released from the printer without presenting user-authentication.

Control your printing costs
Set up print policies and quotas by user or group to improve print behavior and reduce costs.

Building the **ECOSYS** legacy

In the age of hybrid working, professionals must be able to produce work with the same quality, efficiency and security regardless of location. With printing still being fundamental to daily business operations for many workers, they need compact and reliable devices like the **ECOSYS MA6000ifx Series** to perform all their printing, scanning and copying needs.

ECOSYS has been loyally serving businesses of all shapes and sizes for more than 30 years, always putting the needs of the customer first. We have demonstrated our commitment to excellence and ability to respond to market needs in a timely manner time and time again. A modern classic represents a ready-made solution for today's professionals, offering customers a wide portfolio to choose from with the very best technology.

To Kyocera, ECOSYS means leading the way in A4 MFP innovation.

Kyocera Document Solutions has championed innovative technology since 1934. We enable our customers to turn information into knowledge, excel at learning and surpass others. With professional expertise and a culture of empathetic partnership, we help organizations put knowledge to work to drive change.
