**Kyocera Windows Universal 32/ 64 Bit Driver**  
This is the most recent version of the Kyocera KX driver, and will allow for printing to most of Kyocera's product line. Driver is for PC's running either 32 or 64-bit versions of Windows 2000, XP, Vista, Windows 7, 8 or Server 2003/2008.  
[Kx611413\\_UPD\\_en.zip](#)  
Recently released update for Kyocera KX driver models **3051ci and UP** is available to download if you are experiencing any problems with the universal driver, download here [x501\\_x551\\_KX\\_Web\\_Installer.exe](#)

**Kyocera Windows Universal Driver**

*1) open web browser to www.adcchico.com  
2) choose "downloads tab"  
3) scroll down the screen to this file and 'click' on file name, download screen will open, choose location to save file.*

# Driver installation

The screenshot shows a Windows File Explorer window with the following path: Computer > Tech Work (T:) > Downloads > Drivers > Kx611413\_UPD\_en > Kx611413\_UPD\_en. The window displays a list of files and folders. A callout box with a black border and red text contains the following instructions:

- 1) Locate where driver is downloaded and execute file to extract.
- 2) Choose "setup.exe" and start installation setup.

The callout box points to the 'Setup.exe' file in the list. The file list is as follows:

Name	Date modified	Type	Size

**Resource and Energy Saving**

Resource Saving | Energy Efficiency | Duplex Printing | Power Management

Resource Saving - Paper

For the preservation and sustainable use of forest resources, it is recommended that recycled as well as virgin paper certified under environmental stewardship initiatives or carrying recognized ecolabels, which meet EN 12281:2002\*1 or an equivalent quality standard, be used.

This machine also supports printing on 64 g/m<sup>2</sup> paper. Using such paper containing less raw materials can lead to further saving of forest resources.

\*1: EN12281:2002 "Printing and business paper - Requirements for copy paper for dry toner imaging processes"

# Advance Settings & Administration

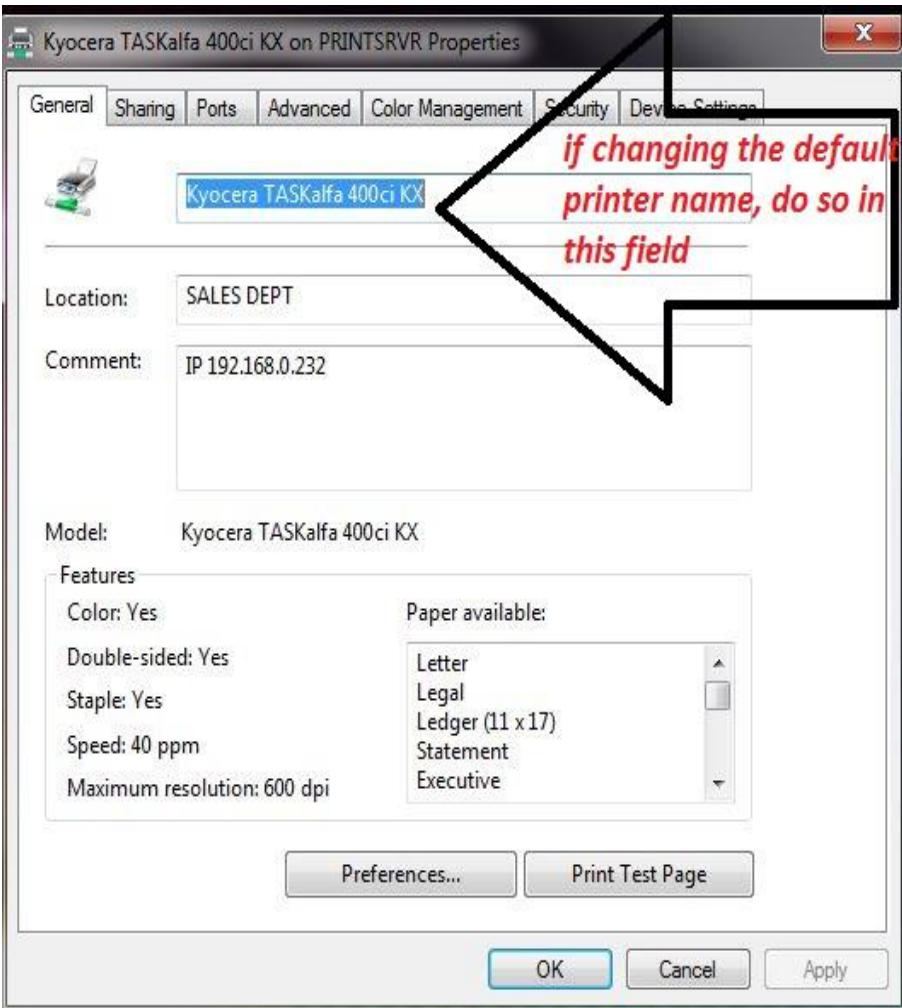

The next few slides will help to create multiple print profiles and advance settings for clients.

Special instructions for multiple printers to same user.  
Used for clients with color copiers and for clients that  
want to track user printing/ copying.

Open control panel and choose icon for “device and printers”

Printer properties tab, used to change default printer name and access additional property settings i.e. “device settings” & “administrator”

Administrator settings allows user to “LOCK” driver to certain functions only, or to enable the “job accounting” codes if tracking print/ copy usage.
